

SHIVANK PANDEY

Software Development Engineer (React.js / Next.js / TypeScript / Node.js)

Gurugram, India | (+91)-7229948751 | shivankpandey23@gmail.com | [LinkedIn](#) | [GitHub](#)

Notice Period: Available to join in 15-30 days

PROFILE SUMMARY

Software Development Engineer with **4+ years of experience** building scalable, high-performance web applications for fintech and enterprise products using **React.js, Next.js, JavaScript (ES6+), and TypeScript**. Skilled in reusable **UI components, Core Web Vitals, cross-browser compatibility, state management (Redux, Redux Toolkit, TanStack Query)**, and **unit testing (Jest, React Testing Library)**, with strong focus on **REST API integration** and performance optimization in **Agile** environments. Expert in leveraging AI-powered development tools (**Cursor, GitHub Copilot, Claude, MCP servers**) to accelerate development velocity and elevate code quality.

CORE SKILLS

Frontend:	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive Design
Backend & Database:	Node.js, Express.js, MongoDB
UI & Styling:	Tailwind CSS, Material-UI, Ant Design, Bootstrap, Component-Based Architecture
State Management & APIs:	Redux, Redux Toolkit, TanStack Query, REST APIs, Axios
Testing & Quality:	Jest, React Testing Library, Unit Testing, SonarQube
Build Tools & DevOps:	Webpack, Vite, Babel, Docker, Jenkins, CI/CD Pipelines
Monitoring & Debugging:	Kibana, Browser Developer Tools
AI-Assisted Development:	GitHub Copilot, Claude, Cursor, Google Antigravity, ChatGPT, Gemini, MCP Servers
Version Control & PM:	Git, GitHub, Bitbucket, Jira, Confluence
Development Practices:	Agile, Scrum, Responsive Design, Cross-Browser Compatibility, Performance Optimization

EXPERIENCE

Software Development Engineer

Freecharge By Axis Bank

Aug 2024 — Present

Gurugram

- Engineered frontend features using **React.js** and **Next.js** for AXIS Bank's **Maximus digital loan platform**, supporting Car, Bike, Tractor, LAS, and Credit Card journeys.
- Implemented **Doc AI** in document-upload workflows, reducing operations and sales-team rework by **80%**, and integrated **Dedupe API and Hunter Check** to reduce fraud by **80%**.
- Automated e-stamping by migrating to **NeSL**, eliminating physical stamp papers and **saving approximately ₹5 Cr annually** in operational costs. Onboarded **5+ insurance partners** to expand financial product offerings.
- Contributed to the Reject/Relook workflow for minor-error case recovery, **generating ₹80Cr+ in sales** within one month of launch.
- Improved application performance by **25%** through frontend optimization and API-call reduction; increased unit-test coverage from **20% to 86%** using **Jest** and React Testing Library, with an enforced **80%** coverage threshold through Husky hooks.
- Built custom **MCP (Model Context Protocol) servers** to enable an **AI-Driven Development Life Cycle (AIDLC)**, automating Jira ticket creation, development workflows, code pushes, and PR creation/reviews through Bitbucket, Confluence, and Jira; collaborated with QA/DevOps on Docker, Jenkins, and Kibana.

Software Development Engineer

Procloz Pvt Ltd

Feb 2024 — Aug 2024

Gurugram

- Built **2 products from scratch**, taking them from initial development to production, and successfully onboarded **60+ clients** onto the platforms.
- Developed responsive, **cross-browser compatible UIs** for Costen and EVYA, supporting **1,000+ users**, using reusable **React.js** components and modern frontend practices.
- Architected **Costen Drive**, a secure document-management platform for storing and managing **10,000+ documents**, with a focus on usability and scalable frontend architecture.
- Designed and implemented **5+ onboarding workflows**, dashboards, and authentication modules, creating **reusable UI components** that streamlined user onboarding and reduced development effort.
- Improved application performance by **20%** through **React.js** optimization, dependency upgrades, API handling, and frontend performance improvements.

Software Development Engineer

Koenig Solutions Pvt Ltd

Oct 2022 — Feb 2024

Gurugram

- Built **Assignment, Salary, and Leave Management modules** for VERU, streamlining workflows for **500+ employees**.
- Integrated and optimized **REST APIs**, reducing application load times by **30%** and improving overall user experience.
- Built reusable **React.js UI components** and responsive layouts for VERU's core HR modules, and participated in **code reviews** and **sprint planning** to improve code quality and align development priorities.
- Collaborated with QA and product teams in Agile/Scrum environments, **improving sprint delivery efficiency by 20-30%** while consistently meeting deadlines.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

ABES Engineering College, Ghaziabad, India | CGPA: 8.52/10
